

For you the Alaskan family caregiver

Freedom is a valuable luxury Alaskans treasure. Freedom to live the way we want, where we want, how we want. We know that caring for an elderly parent, disabled spouse or young family member can be a 24-hour job. COMPASS brings help home to the primary caregiver. We offer services designed with each family's special circumstances in mind. Our job is to take care of you as you take care of others. COMPASS provides in-home companionship and other support services for your loved one, so you can "take a break" and renew your own energy.

COMPASS is 100% Alaskan serving family caregivers since 1980. We understand Alaskans.

- Organizing the household

PERSONAL CARE ASSISTANCE

COMPASS brings help home to consumers with consumer directed or agency based personal care in-home care assistance choices. Personal care is more “hands-on” to assist with personal needs like bathing, grooming, eating, locomotion, as well as laundry, shopping and meal preparation.

Agency based personal care is in-home care designed for individuals who have complex medical needs or physical limitations or who choose COMPASS to manage all aspects of their care.

Consumer Directed vs. Agency Based Assistance

CONSUMER DIRECTED

- Consumer determines need
- Consumer develops service plan
- Consumer selects provider

AGENCY BASED

- Agency determines need
- Agency develops service plan
- Agency directs care and selects staff
- RN oversight

Consumer directed in-home service personal care is perfect for individuals who have complex medical needs or physical limitations, but are capable of independently being their own “boss” and directing their own care.
